# *XLS-19 V2*

Experience the Magnitude of  
Momentum!

"Our **BEST PERFORMING STRATEGY** in 2017..."

We released version 1 of XLS-19 in late 2016.

This Strategy has consistently risen to the top of our Strategy List in OmniView as the **#1 Performer** since release.

Now we have improved it so it's nearly TWICE as profitable!

PLUS, you can auto-trade it using OmniTrader's AutoTrade feature.

...as featured in OmniView

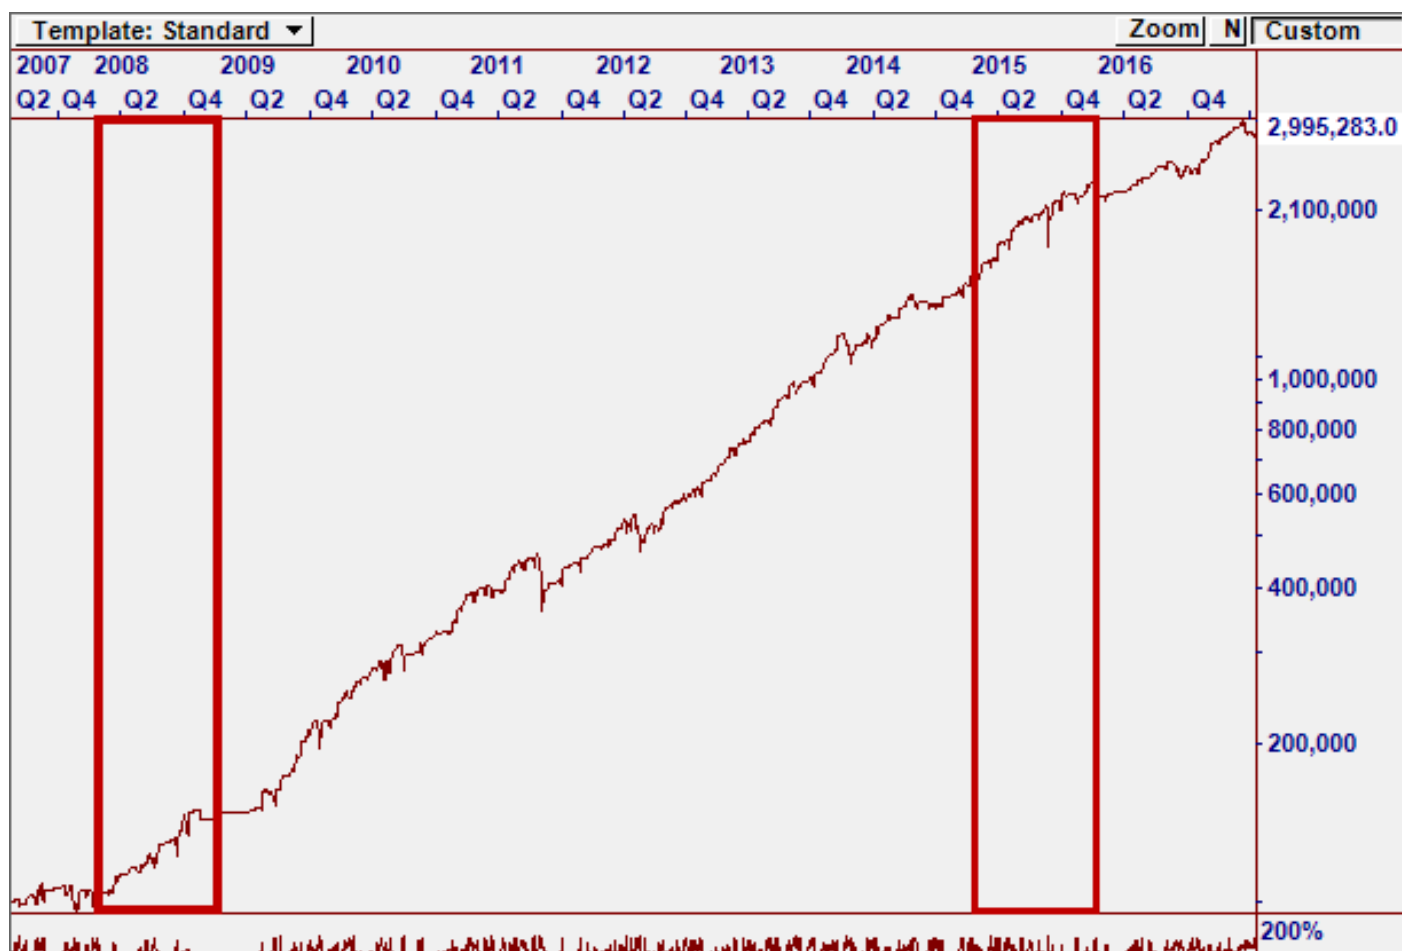

Strategy	Hit Rate	PPT	NT
XLS-19	75%	0.4%	68
T3-S1	69%	0.2%	255
UIS Double Sto	66%	0.1%	546
NSP-41	66%	0.1%	164

A screenshot of a software interface titled "Top Strategies". It displays a table with four columns: Strategy, Hit Rate, PPT, and NT. The table lists four strategies: XLS-19, T3-S1, UIS Double Sto, and NSP-41. XLS-19 is highlighted in a darker blue, indicating it is the top performer. The table has a scroll bar on the right side.

# Announcing XLS-19 Version 2

## TWICE as Profitable!

### *The INCREDIBLE NEW Version 2:*

- Averaging 38% per Year over 10 years!
- 73% Hit Rate & .91% Profit per Trade
- More Optimal Entries and Less Overnight Exposure

Thanks to research performed by our strategy development team, this new version is one of the most powerful Strategies we have ever released

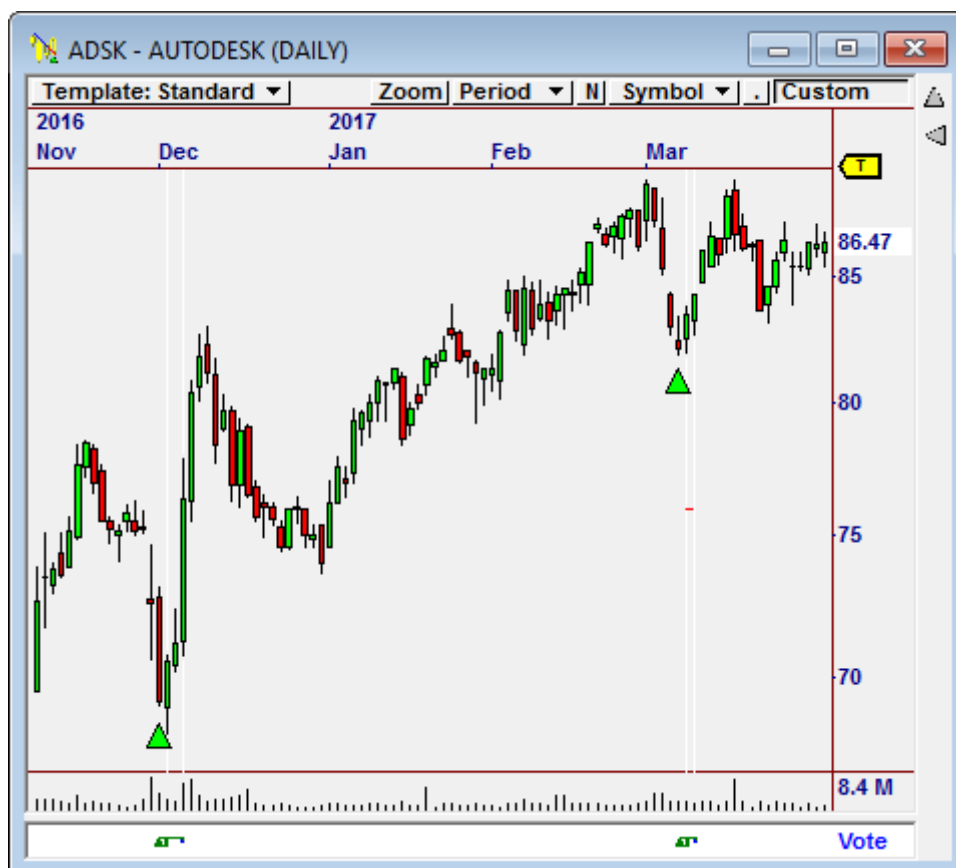

– **XLS-19 V2 is the first one to show over 30% Annual Returns since 2007.**

**XLS-19 works great in difficult markets.**

We've highlighted both 2008 and 2015 in the equity curve above. These were difficult years for the U.S. markets but BANNER YEARS for XLS-19, Version 2.
